

Eugen - Andrei ROF

Full contact details available via email/LinkedIn

eugenrof@gmail.com

Cluj-Napoca, Romania

- 14+ Years in Software Quality Assurance: Professional background initiated in 2012, spanning manual and automated testing across web, mobile, and hardware platforms
- Technical Specialization: Implementation of automation frameworks using JavaScript/TypeScript (Cypress, Playwright, WebdriverIO) and integration into CI/CD pipelines
- Dual-Track Leadership: Consistent execution of responsibilities as both a Senior QA Engineer and a certified Scrum Master (PSM I & II), balancing technical delivery with team facilitation

Experience

03/2022 - Present

Senior QA Engineer | Scrum Master (PSM II)
QCatalyst Romania (S.C. Digital Velocity Group S.R.L)
(Regele Ferdinand Street, 22-26 E, Cluj-Napoca)

- Dual-role execution: Management of quality assurance and Scrum Master responsibilities for the National Geographic Society project
- Automation & CI/CD: Development of test suites in Cypress/TypeScript with seamless integration into GitLab CI/CD pipelines
- R&D and Proof of Concepts: Evaluation and implementation of AI-driven testing tools, performance testing utilities (Grafana K6), and advanced test management systems (TestRail)
- Performance & Management: Oversight of system stability through K6 performance scripts and centralized test case management
- Agile Facilitation: Leadership of Scrum ceremonies and resolution of organizational blockers as a certified PSM I/PSM II

11/2014 - 03/2022

Senior Test Engineer - ENDAVA ROMANIA S.R.L
(51 Al. Vaida - Voievod Street 400436, Cluj-Napoca)

- Framework Development: Building test suites using Selenium/Python (Behave/Pytest)
- Platform Testing: Verifying hardware ecosystems including media boxes for IPTV, Android TV, FireTV and web clients
- Backend Validation: Validating server requests via SoapUI and managing defects in Jira/Xray
- Coordinating technical demos and requirements with international clients
- Developed and executed test plans, shared blockers in daily meetings, and ran automated tests with Selenium WebDriver
- Tracked issues in Jira, checked server requests with SoapUI, updated documentation, and presented demos to the client every two weeks
